

UNSCRAMBLEHQ — MASTER BUILD DOCUMENT (VERSION 1.0)

Project Overview

Project Name: **UnscrambleHQ**

Primary Domain: **UnscrambleHQ.com** (preferred)

Mission: Build the fastest, cleanest, and most useful word unscrambler on the web. The website should be designed as a long-term digital asset capable of attracting millions of organic visitors through Google Search while providing an exceptional user experience.

This is NOT just another word unscrambler.

It should become the foundation for an expanding portfolio of word tools.

Business Goals

Primary Revenue Sources

• Google AdSense • Premium memberships (future) • Affiliate partnerships • Sponsored placements • Email newsletter • Future mobile app

Target Audience

• Wordle players • Scrabble players • Words With Friends players • Crossword enthusiasts • Students • Teachers • Writers • General word game users

Design Philosophy

The website should feel:

• Extremely clean • Extremely fast • Mobile-first • Minimalist • Modern • Professional

Think:

Google

Stripe

Linear

Vercel

Not cluttered.

No unnecessary graphics.

Lots of whitespace.

Rounded components.

Subtle animations.

Color Palette

Primary: Deep Indigo (#3B5BDB)

Background: White (#FFFFFF)

Secondary Background: Light Gray (#F8F9FA)

Accent: Emerald Green (#22C55E)

Text: Near Black (#111827)

Borders: Very Light Gray (#E5E7EB)

Typography

Use:

Inter

Large bold headline

Comfortable spacing

Readable paragraph widths

Excellent mobile typography

Homepage Layout

Navigation

Logo

UnscrambleHQ

Navigation Links

• Word Unscrambler • Anagram Solver • Word Finder • Wordle Helper

Hero

Headline

"Unscramble Letters Into Words Instantly"

Subheadline

Enter your letters and instantly discover every possible word, anagram, Scrabble play, and Wordle solution.

Large Input Box

Placeholder:

"Enter letters..."

Primary Button

Unscramble

Secondary Button

Clear

Results Section

Organize words by length.

Example

2 Letter Words

3 Letter Words

4 Letter Words

5 Letter Words

6 Letter Words

Each result card should display:

• Word • Scrabble score • Word length • Definition placeholder • Copy button

SEO

This is extremely important.

Every page should include:

Unique Title

Unique Meta Description

Structured Data

Open Graph

Twitter Cards

Canonical URL

Breadcrumb Schema

FAQ Schema

Robots

XML Sitemap

Excellent Core Web Vitals

Homepage SEO Content

Include educational sections explaining:

What is a Word Unscrambler?

How Anagrams Work

How to Win at Scrabble

Wordle Strategies

Word Game Tips

This content should be useful, original, and written for users first.

FAQ

Example Questions

How does a word unscrambler work?

Can I use this for Scrabble?

Does it work for Wordle?

What is an anagram?

How are Scrabble scores calculated?

Future Expansion

The architecture should support dedicated landing pages for:

Word Unscrambler

Anagram Solver

Word Finder

Scrabble Word Finder

Words With Friends

Wordle Helper

Crossword Solver

5 Letter Words

6 Letter Words

Words Starting With A

Words Starting With B

Words Ending With ING

Words Ending With ED

Words Containing QU

...and eventually thousands of SEO landing pages generated from the same dictionary engine.

Technical Stack

Next.js

TypeScript

Tailwind CSS

App Router

Vercel Deployment

Long-Term Vision

UnscrambleHQ should become the flagship word-tools platform.

Eventually expand into:

• Daily Word Challenge • Daily Anagram • Vocabulary Builder • AI Word Assistant • Synonym Finder • Antonym Finder • Rhyming Dictionary • Crossword Assistant • Spelling Checker • Grammar Tools • Word Statistics Dashboard • Personal Word History • Saved Lists • Browser Extension • Mobile Apps

The objective is to build a durable digital asset with exceptional SEO, outstanding user experience, and a scalable architecture that can grow into one of the leading destinations for word-game players worldwide.
